

## CRITEO REPORTS STRONG RESULTS FOR THE SECOND QUARTER 2017

SINGAPORE - August 3, 2017 - Criteo S.A. (NASDAQ: CRTO), the commerce marketing technology company, today announced financial results for the second quarter ended June 30, 2017.

- Revenue increased 33% (or 35% at constant currency<sup>1</sup>) to \$542 million.
- Revenue excluding Traffic Acquisition Costs, or Revenue ex-TAC,<sup>2</sup> grew 32% (or 34% at constant currency) to \$220 million, or 41% of revenue.
- Adjusted EBITDA<sup>2</sup> grew 38% (or 42% at constant currency) to \$54 million, or 25% of Revenue ex-TAC.
- Cash flow from operating activities increased 214% to \$60 million.
- Free Cash Flow<sup>2</sup> increased \$37 million to \$33 million.
- Net Income decreased 44% to \$8 million, driven by the accounting impact of the HookLogic, Inc. ("HookLogic") acquisition and restructuring costs in China in the second quarter.
- Adjusted Net Income per diluted share<sup>2</sup> increased 18% to \$0.39.

"We are building the highest performing and open commerce marketing ecosystem for retailers and brands, allowing them to compete with large ecommerce companies," said Eric Eichmann, CEO. "Our unique solution opens up a large opportunity for us."

"We delivered accelerating profitable growth and increased cash flow, while investing in the business," said Benoit Fouilland, CFO. "This attractive combination continues to differentiate our business model."

### Operating Highlights

- The year-over-year growth in same-client Revenue ex-TAC accelerated from the prior quarter to 17% at constant currency, the result of better technology and a broader supply network.
- We added a total of 950 net clients, ending the quarter with more than 16,000 commerce and brand clients, while maintaining a 90% client retention across the business.
- Criteo User Device Graph, continued to grow in scale and efficiency, with 76% of Revenue ex-TAC generated from users matched in the graph.
- Criteo Direct Bidder, our next generation header bidding technology, is now connected to over 450 publishers globally, helping increase their average yield by 20% to 40%.
- We are testing several new product initiatives with promising results, including app installs, CRM onboarding for brands and retailers, and Store-to-web retargeting campaigns.

### Revenue and Revenue ex-TAC

Revenue grew 33%, or 35% at constant currency, to \$542 million (Q2 2016: \$407 million).

Revenue ex-TAC grew 32%, or 34% at constant currency, to \$220 million (Q2 2016: \$166 million). This increase was primarily driven by continued innovation, both in the core technology and in new products, a broader and improved access to publisher inventory, and the addition of new clients across regions, categories and products.

<sup>1</sup> Growth at constant currency excludes the impact of foreign currency fluctuations and is computed by applying the 2016 average exchange rates for the relevant period to 2017 figures.

<sup>2</sup> Revenue ex-TAC, Adjusted EBITDA, Adjusted Net Income per diluted share and Free Cash Flow are not measures calculated in accordance with U.S. GAAP.

- In the Americas, Revenue ex-TAC grew 40%, or 39% at constant currency, to \$84 million and represented 38% of total Revenue ex-TAC.
- In EMEA, Revenue ex-TAC grew 27%, or 32% at constant currency, to \$85 million and represented 39% of total Revenue ex-TAC.
- In Asia-Pacific, Revenue ex-TAC grew 29%, or 32% at constant currency, to \$51 million and represented 23% of total Revenue ex-TAC.

Revenue ex-TAC margin as a percentage of revenue was 41%, in line with prior quarters.

### **Net Income and Adjusted Net Income**

Net income decreased 44% to \$8 million (Q2 2016: \$13 million). Net income available to shareholders of Criteo S.A. was \$6 million, or \$0.09 per share on a diluted basis (Q2 2016: \$12 million, or \$0.19 per share on a diluted basis). Net income in the period was impacted by restructuring costs of \$3.3 million related to the refocus of our Chinese efforts on the export business. Net income in the period was also impacted by the acquisition of HookLogic, including the one-time grant of equity awards in connection with the acquisition, the amortization of intangible assets recognized following the purchase price accounting, and increased financial expense related to the funding of 30% of the purchase price. Excluding the impact of non-cash accounting effects related to HookLogic, net income increased 7% to \$14 million.

Adjusted Net income, or net income adjusted to eliminate the impact of equity awards compensation expense, amortization of acquisition-related intangible assets, acquisition-related costs and deferred price consideration, restructuring costs and the tax impact of these adjustments, increased 20% to \$26 million, or \$0.39 per share on a diluted basis (Q2 2016: \$22 million, or \$0.33 per share on a diluted basis).

### **Adjusted EBITDA and Operating Expenses**

Adjusted EBITDA grew 38%, or 42% at constant currency, to \$54 million (Q2 2016: \$39 million). This increase in Adjusted EBITDA was primarily driven by the strong Revenue ex-TAC performance across all regions, as well as continued operating leverage across the organization.

Adjusted EBITDA margin as a percentage of Revenue ex-TAC was 25% (Q2 2016: 24%).

Operating expenses increased 36% to \$174 million (Q2 2016: \$128 million), including approximately \$1 million of restructuring costs in China. Operating expenses, excluding the impact of equity awards compensation expense, pension costs, restructuring costs, depreciation and amortization and acquisition-related costs and deferred price consideration, which we refer to as Non-GAAP Operating Expenses, increased 28% to \$148 million (Q2 2016: \$116 million). This increase is primarily related to the year-over-year growth in headcount in Research and Development (38%), Sales and Operations (27%) and General and Administrative (25%), as we continued to grow the entire organization.

### **Cash Flow and Cash Position**

Cash flow from operating activities increased 214% to \$60 million (Q2 2016: \$19 million).

Free Cash Flow, defined as cash flow from operating activities less acquisition of intangible assets, property, plant and equipment and change in accounts payable related to intangible assets, property, plant and equipment, grew by \$37 million to \$33 million (Q2 2016: \$(3) million).

Total cash and cash equivalents were \$308 million as of June 30, 2017 (December 31, 2016: \$270 million).

### **Business Outlook**

The following forward-looking statements reflect Criteo's expectations as of August 2, 2017.

Third Quarter 2017 Guidance:

- We expect Revenue ex-TAC to be between \$227 million and \$230 million.
- We expect Adjusted EBITDA to be between \$69 million and \$72 million.

Fiscal Year 2017 Guidance:

- We expect Revenue ex-TAC growth to be between 28% and 31% at constant currency.
- We expect Adjusted EBITDA margin as a percentage of Revenue ex-TAC to increase between 0 basis points and 50 basis points.

The above guidance for the third quarter ending September 30, 2017, and the fiscal year ending December 31, 2017, assumes the following exchange rates [for the nine months to September 30, 2017 and the fiscal year ending December 31, 2017](#) for the main currencies impacting our business: a U.S. dollar-euro rate of 0.91, a U.S. dollar-Japanese Yen of 113, a U.S. dollar-British pound rate of 0.79 and a U.S. dollar-Brazilian real rate of 3.22.

The above guidance assumes no acquisitions are completed during the third quarter ending September 30, 2017 and the fiscal year ending December 31, 2017.

Reconciliation of Revenue ex-TAC and Adjusted EBITDA guidance to the closest corresponding U.S. GAAP measure is not available without unreasonable efforts on a forward-looking basis due to the high variability, complexity and low visibility with respect to the charges excluded from these non-GAAP measures; in particular, the measures and effects of equity awards compensation expense specific to equity compensation awards that are directly impacted by unpredictable fluctuations in our share price. We expect the variability of the above charges to have a significant, and potentially unpredictable, impact on our future U.S. GAAP financial results.

## Non-GAAP Financial Measures

This press release and its attachments include the following financial measures defined as non-GAAP financial measures by the U.S. Securities and Exchange Commission (the "SEC"): Revenue ex-TAC, Revenue ex-TAC by Region, Revenue ex-TAC margin, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Net Income, Adjusted Net Income per diluted share, Free Cash Flow and Non-GAAP Operating Expenses. These measures are not calculated in accordance with U.S. GAAP.

Revenue ex-TAC is our revenue excluding Traffic Acquisition Costs ("TAC") generated over the applicable measurement period and Revenue ex-TAC by Region reflects our Revenue ex-TAC by our geographies. Revenue ex-TAC, Revenue ex-TAC by Region and Revenue ex-TAC margin are key measures used by our management and board of directors to evaluate our operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. In particular, we believe that the elimination of TAC from revenue can provide a useful measure for period-to-period comparisons of our business and across our geographies. Accordingly, we believe that Revenue ex-TAC, Revenue ex-TAC by Region and Revenue ex-TAC margin provide useful information to investors and the market generally in understanding and evaluating our operating results in the same manner as our management and board of directors.

Adjusted EBITDA is our consolidated earnings before financial income (expense), income taxes, depreciation and amortization, adjusted to eliminate the impact of equity awards compensation expense, pension service costs, restructuring costs, acquisition-related costs and deferred price consideration. Adjusted EBITDA and Adjusted EBITDA margin are key measures used by our management and board of directors to understand and evaluate our core operating performance and trends, to prepare and approve our annual budget and to develop short- and long-term operational plans. In particular, we believe that by eliminating equity awards compensation expense, pension service costs, restructuring costs, acquisition-

related costs and deferred price consideration, Adjusted EBITDA and Adjusted EBITDA margin can provide useful measures for period-to-period comparisons of our business. Accordingly, we believe that Adjusted EBITDA and Adjusted EBITDA margin provide useful information to investors and the market generally in understanding and evaluating our results of operations in the same manner as our management and board of directors.

Adjusted Net Income is our net income adjusted to eliminate the impact of equity awards compensation expense, amortization of acquisition-related intangible assets, acquisition-related costs and deferred price consideration, restructuring costs and the tax impact of these adjustments. Adjusted Net Income and Adjusted Net Income per diluted share are key measures used by our management and board of directors to evaluate operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. In particular, we believe that by eliminating equity awards compensation expense, amortization of acquisition-related intangible assets, acquisition-related costs and deferred price consideration, restructuring costs and the tax impact of these adjustments, Adjusted Net Income and Adjusted Net Income per diluted share can provide useful measures for period-to-period comparisons of our business. Accordingly, we believe that Adjusted Net Income and Adjusted Net Income per diluted share provide useful information to investors and the market generally in understanding and evaluating our results of operations in the same manner as our management and board of directors.

Free Cash Flow is defined as cash flow from operating activities less acquisition of intangible assets, property, plant and equipment and change in accounts payable related to intangible assets, property, plant and equipment. Free Cash Flow is a key measure used by our management and board of directors to evaluate the Company's ability to generate cash. Accordingly, we believe that Free Cash Flow permits a more complete and comprehensive analysis of our available cash flows.

Non-GAAP Operating Expenses are our consolidated operating expenses adjusted to eliminate the impact of depreciation and amortization, equity awards compensation expense, pension service costs, restructuring costs, acquisition-related costs and deferred price consideration. The Company uses Non-GAAP Operating Expenses to understand and compare operating results across accounting periods, for internal budgeting and forecasting purposes, for short-term and long-term operational plans, and to assess and measure our financial performance and the ability of our operations to generate cash. We believe Non-GAAP Operating Expenses reflects our ongoing operating expenses in a manner that allows for meaningful period-to-period comparisons and analysis of trends in our business. As a result, we believe that Non-GAAP Operating Expenses provide useful information to investors in understanding and evaluating our core operating performance and trends in the same manner as our management and in comparing financial results across periods. In addition, Non-GAAP Operating Expenses is a key component in calculating Adjusted EBITDA, which is one of the key measures the Company uses to provide its quarterly and annual business outlook to the investment community.

Please refer to the supplemental financial tables provided in the appendix of this press release for a reconciliation of Revenue ex-TAC to Revenue, Revenue ex-TAC by Region to Revenue by Region, Adjusted EBITDA to Net Income, Adjusted Net Income to Net Income, Free Cash Flow to cash flow from operating activities, and Non-GAAP Operating Expenses to Operating Expenses, in each case, the most comparable U.S. GAAP measure. Our use of non-GAAP financial measures has limitations as an analytical tool, and you should not consider such non-GAAP measures in isolation or as a substitute for analysis of our financial results as reported under U.S. GAAP. Some of these limitations are: (1) other companies, including companies in our industry which have similar business arrangements, may address the impact of TAC differently; and (2) other companies may report Revenue ex-TAC, Revenue ex-TAC by Region, Adjusted EBITDA, Adjusted Net Income, Free Cash Flow, Non-GAAP Operating Expenses or similarly titled measures but calculate them differently or over different regions, which reduces their usefulness as comparative measures. Because of these and other limitations, you should consider these measures alongside our U.S. GAAP financial results, including revenue and net income.

## **Forward-Looking Statements Disclosure**

This press release contains forward-looking statements, including projected financial results for the quarter ending September 30, 2017 and the fiscal year ending December 31, 2017, our expectations regarding our market opportunity and future growth prospects and other statements that are not historical facts and involve risks and uncertainties that could cause actual results to differ materially. Factors that might cause or contribute to such differences include, but are not limited to: failure related to our technology and our ability to respond to changes in technology, uncertainty regarding our ability to access a consistent supply of internet display advertising inventory and expand access to such inventory, investments in new business opportunities and the timing of these investments, whether the projected benefits of acquisitions materialize as expected, uncertainty regarding international growth and expansion, the impact of competition, uncertainty regarding legislative, regulatory or self-regulatory developments regarding data privacy matters, failure to enhance our brand cost-effectively, recent growth rates not being indicative of future growth, our ability to manage growth, potential fluctuations in operating results, our ability to grow our base of clients, and the financial impact of maximizing Revenue ex-TAC, as well as risks related to future opportunities and plans, including the uncertainty of expected future financial performance and results and those risks detailed from time-to-time under the caption "Risk Factors" and elsewhere in the Company's SEC filings and reports, including the Company's Annual Report on Form 10-K filed with the SEC on March 1, 2017, as well as future filings and reports by the Company. Except as required by law, the Company undertakes no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events, changes in expectations or otherwise.

### Conference Call Information

Criteo's earnings conference call will take place today, August 2, 2017, at **8:00 AM ET, 2:00 PM CET**. The conference call will be webcast live on the Company's website <http://ir.criteo.com> and will be available for replay.

Conference call details:

- U.S. callers: +1 855 209 8212
- International callers: +1 412 317 0788 or +33 1 76 74 05 02

Please ask to be joined into the "**Criteo S.A.**" call.

### About Criteo

Criteo (NASDAQ: CRTO), the leader in commerce marketing, is building the highest performing and open commerce marketing ecosystem to drive profits and sales for retailers and brands. 2,700 Criteo team members partner with 16,000 customers and thousands of publishers across the globe to deliver performance at scale by connecting shoppers to the things they need and love. Designed for commerce, Criteo Commerce Marketing Ecosystem sees over \$550 billion in annual commerce sales data.

<sup>(1)</sup> We define Revenue ex-TAC as our revenue excluding traffic acquisition costs generated over the applicable measurement period. Revenue ex-TAC and Revenue, Traffic Acquisition Costs and Revenue ex-TAC by Region are not measures calculated in accordance with U.S. GAAP. We have included Revenue ex-TAC and Revenue, Traffic Acquisition Costs and Revenue ex-TAC by Region in this Form 8-K because they are key measures used by our management and board of directors to evaluate operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. In particular, we believe that the elimination of TAC from revenue and review of these measures by region can provide useful measures for period-to-period comparisons of our business. Accordingly, we believe that Revenue ex-TAC and Revenue, Traffic Acquisition Costs and Revenue ex-TAC by Region provide useful information to investors and others in understanding and evaluating our results of operations in the same manner as our management and board of directors. Our use of Revenue ex-TAC and Revenue, Traffic Acquisition Costs and Revenue ex-TAC by Region has limitations as an analytical tool, and you should not consider them in isolation or as a substitute for analysis of our financial results as reported under U.S. GAAP. Some of these limitations are: (a) other companies, including companies in our industry which have similar business arrangements, may address the impact of TAC differently; (b) other companies may report Revenue, Traffic Acquisition Costs and Revenue ex-TAC by Region or similarly titled measures but define the regions differently, which reduces their effectiveness as a comparative measure; and (c) other companies may report Revenue ex-TAC or similarly titled measures but calculate them differently, which reduces their usefulness as a comparative measure. Because of these and other limitations, you should consider Revenue ex-TAC and Revenue, Traffic Acquisition Costs and Revenue ex-TAC by Region alongside our other U.S. GAAP financial results, including revenue. The above table provides a reconciliation of Revenue ex-TAC to revenue and Revenue ex-TAC by Region to revenue by region.

Adjusted EBITDA <sup>(1)</sup>	\$ 39,201	\$ 54,086	\$ 88,046	\$ 110,540

<sup>(1)</sup> We define Adjusted EBITDA as our consolidated earnings before financial income (expense), income taxes, depreciation and amortization, adjusted to eliminate the impact of equity awards compensation expense, pension service costs, restructuring costs, acquisition-related costs and deferred price consideration. Adjusted EBITDA is not a measure calculated in accordance with U.S. GAAP. We have included Adjusted EBITDA because it is a key measure used by our management and board of directors to understand and evaluate our core operating performance and trends, to prepare and approve our annual budget and to develop short-term and long-term operational plans. In particular, we believe that the elimination of equity awards compensation expense, pension service costs, restructuring costs, acquisition-related costs and deferred price consideration in calculating Adjusted EBITDA can provide a useful measure for period-to-period comparisons of our business. Accordingly, we believe that Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations in the same manner as our management and board of directors. Our use of Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our financial results as reported under U.S. GAAP. Some of these limitations are: (a) although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements; (b) Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs; (c) Adjusted EBITDA does not reflect the potentially dilutive impact of equity-based compensation; (d) Adjusted EBITDA does not reflect tax payments that may represent a reduction in cash available to us; and (e) other companies, including companies in our industry, may calculate Adjusted EBITDA or similarly titled measures differently, which reduces their usefulness as a comparative measure. Because of these and other limitations, you should consider Adjusted EBITDA alongside our U.S. GAAP financial results, including net income.

Total Non GAAP Operating expenses <sup>(1)</sup>	\$ (115,972)	\$ (148,428)	\$ (219,505)	\$ (285,883)

<sup>(1)</sup> We define Non-GAAP Operating Expenses as our consolidated operating expenses adjusted to eliminate the impact of depreciation and amortization, equity awards compensation expense, pension service costs, restructuring costs, acquisition-related costs and deferred price consideration. The Company uses Non-GAAP Operating Expenses to understand and compare operating results across accounting periods, for internal budgeting and forecasting purposes, for short-term and long-term operational plans, and to assess and measure our financial performance and the ability of our operations to generate cash. We believe Non-GAAP Operating Expenses reflects our ongoing operating expenses in a manner that allows for meaningful period-to-period comparisons and analysis of trends in our business. As a result, we believe that Non-GAAP Operating Expenses provides useful information to investors in understanding and evaluating our core operating performance and trends in the same manner as our management and in comparing financial results across periods. In addition, Non-GAAP Operating Expenses is a key component in calculating Adjusted EBITDA, which is one of the key measures we use to provide our quarterly and annual business outlook to the investment community.

<sup>(1)</sup> We define Adjusted Net Income as our net income adjusted to eliminate the impact of equity awards compensation expense, amortization of acquisition-related intangible assets, restructuring costs, acquisition-related costs and deferred price consideration and the tax impact of the foregoing adjustments. Adjusted Net Income is not a measure calculated in accordance with U.S. GAAP. We have included Adjusted Net Income because it is a key measure used by our management and board of directors to evaluate operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. In particular, we believe that the elimination of equity awards compensation expense, amortization of acquisition-related intangible assets, acquisition-related costs and deferred price consideration, restructuring costs and the tax impact of the foregoing adjustments in calculating Adjusted Net Income can provide a useful measure for period-to-period comparisons of our business. Accordingly, we believe that Adjusted Net Income provides useful information to investors and others in understanding and evaluating our results of operations in the same manner as our management and board of directors. Our use of Adjusted Net Income has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our financial results as reported under U.S. GAAP. Some of these limitations are: (a) Adjusted Net Income does not reflect the potentially dilutive impact of equity-based compensation or the impact of certain acquisition related costs; and (b) other companies, including companies in our industry, may calculate Adjusted Net Income or similarly titled measures differently, which reduces their usefulness as a comparative measure. Because of these and other limitations, you should consider Adjusted Net Income alongside our other U.S. GAAP-based financial results, including net income.

<sup>(1)</sup> Information herein with respect to results presented on a constant currency basis is computed by applying prior period average exchange rates to current period results. We have included results on a constant currency basis because it is a key measure used by our management and board of directors to evaluate operating performance. Management reviews and analyzes business results excluding the effect of foreign currency translation because they believe this better represents our underlying business trends. The table above reconciles the actual results presented in this section with the results presented on a constant currency basis.

<sup>(2)</sup> Revenue ex-TAC is not a measure calculated in accordance with U.S. GAAP. See the table entitled "Reconciliation of Revenue ex-TAC by Region to Revenue by Region" for a reconciliation of Revenue Ex-TAC to revenue.

<sup>(3)</sup> Adjusted EBITDA is not a measure calculated in accordance with U.S. GAAP. See the table entitled "Reconciliation of Adjusted EBITDA to Net Income" for a reconciliation of Adjusted EBITDA to net income.
