

Logitech® M337 Bluetooth® Mouse

Freedom to Create on any Device,
Anywhere

Announcement Date: Sept. 3, 2015

Available: September 2015

Price: \$49.00

Colour: Black, Blue and Red

Product Description

The Logitech M337 Bluetooth Mouse lets you create on virtually any computing device, whenever and wherever you choose. Its programmable navigation button puts smart control in the palm of your hand. It allows you to switch between applications, change between desktops, do frequent actions such as dragging-and-dropping files and images, replicate the three-finger swipe gesture that brings up mission control on a Mac computer or bring up Task View on Windows 10. Its laser-grade optical sensor tracks with precision on most surfaces. It's portable, has a curved shape, a tilt wheel and textured rubber grips that provide lasting comfort, and it can keep going for up to 10 months on just one AA battery.*

Key Features

- **Bluetooth wireless technology:** The Logitech M337 Bluetooth Mouse can connect to virtually any device so you can create on a computer or tablet anytime, anywhere.
- **Compact, portable design:** Slip this compact, portable mouse into your bag or pocket so you have the freedom to work anywhere.
- **Navigation button and tilt wheel:** Get smarter control thanks to the navigation button and tilt wheel – all in the palm of your hand.
- **Comfortable, curved shape:** The curved shape with textured rubber grips provides lasting comfort during extended use.
- **Laser-grade optical sensor:** Smooth and precise, the Logitech M337 Bluetooth Mouse works on just about any surface – from metal café tables to tile countertops to your favorite study desk – thanks to the laser-grade optical sensor.
